

QUIZ YOURSELF: DNA REPLICATION

Use the table provided below to study the process of DNA replication. First, go through your PowerPoint and textbook to answer all the questions for each component involved in replication. Keep this completed table as a reference for review. Then, use a blank copy of the table to quiz yourself. Do not look at the answers until you have filled out the whole thing! If you make any mistakes, review that material, and repeat the process again later.

Term	What is it made of? (e.g. protein, DNA, RNA)	What does it do?
Single-stranded Binding Proteins		
RNA Primer		
Helicase		
DNA Polymerase		
DNA Topoisomerase		
Primase		
Telomerase		
Okazaki fragments		
DNA Ligase		
Telomere
